

Greg Abbe, Cape Light Compact

PARTNER

Goals for Today

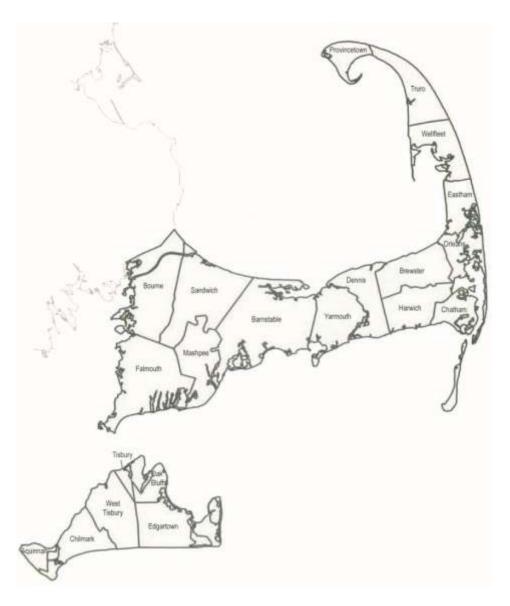

The Basics of Cape Light Compact Who are we?

- Public Entity formed in 1997 to advance the interests in consumers in the newly restructured electric industry
- Serves the 21 towns and 2 counties encompassing Cape Cod and Martha's Vineyard
- Governing Board comprised of appointed individuals who represent each member town's interests
- Serves 200,000+ consumers on Cape Cod and Martha's Vineyard
- Office Located in the Superior Courthouse in Barnstable Village
- Administers \$100+ million annual power supply contract (Since 2003)
- Operations funded through a 'mil adder' incorporated into our customers electric bill (formerly by Barnstable County)
- Deliver a Comprehensive Approach to Energy Services

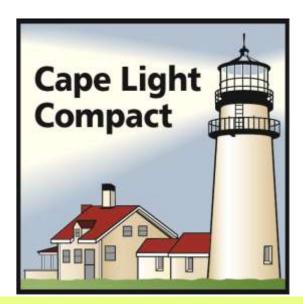

Who is Cape Light Compact?

Comprehensive Approach to Energy Services

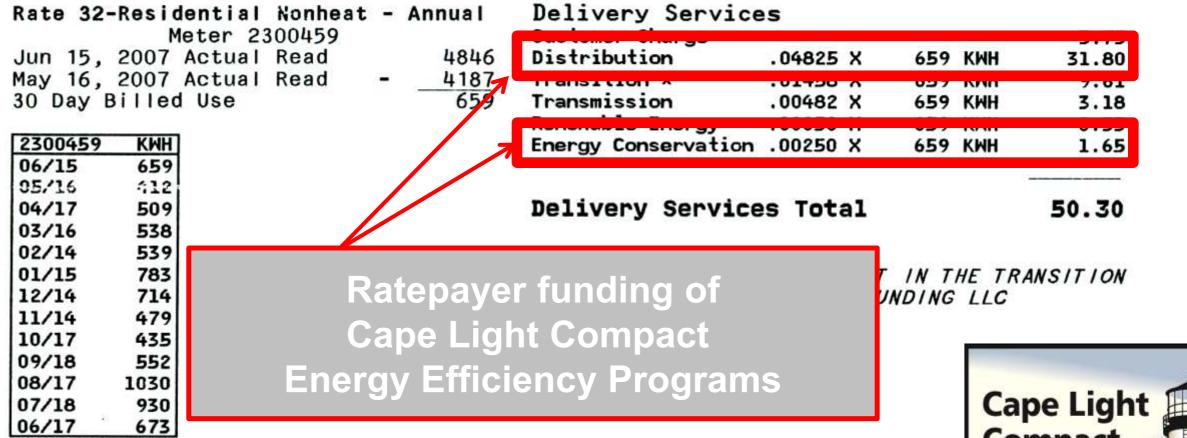

Key Acts for the Compact

- The MA Electricity Restructuring Act of 1997 enables towns and cities to establish municipal aggregators like Cape Light Compact, that could:
 - 1.Purchase power on behalf of all customers in the municipality
 - 2.Implement the rate payer funded energy efficiency programs instead of the local electric utility
- The MA Green Communities Act of 2008 established a new statewide energy efficiency planning process, impacts municipal aggregators
 - 1.Three-year MA Department of Public Utilities (DPU) approved Energy Efficiency Plan
 - 2.Significant funding increases for "all cost-effective measures"
 - 3.Energy Efficiency Advisory Council, Statewide Working Groups

Electricity Used

Cost of Electricity

Who's Paying for All of This?

Resiliency and Energy Efficiency Can Go Hand-in-Hand

A few common concepts:
EE & Food Spoilage Prevention
EE & Generator Efficiency
EE & Home Comfort

Test Your Energy Efficiency Knowledge

What's wrong with your picture?

Un-Insulated, Un-Covered Attic Access

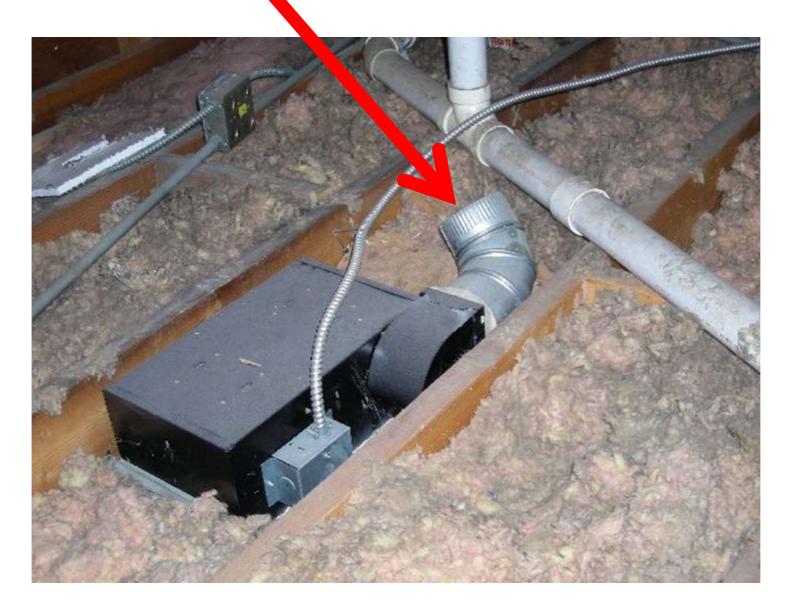

Air Gap in Bulkhead Door

Half-Empty (or full) Refrigerator

Bath Fan Vented Directly Into Attic

Before... Chimney chase open to basement

Non-continuous Insulation

No Contact between Insulation and Floor

Evidence of bulk moisture and mold

Uninsulated rim and band joist located above insulated foundation walls

Insulation removed from Kraft facing

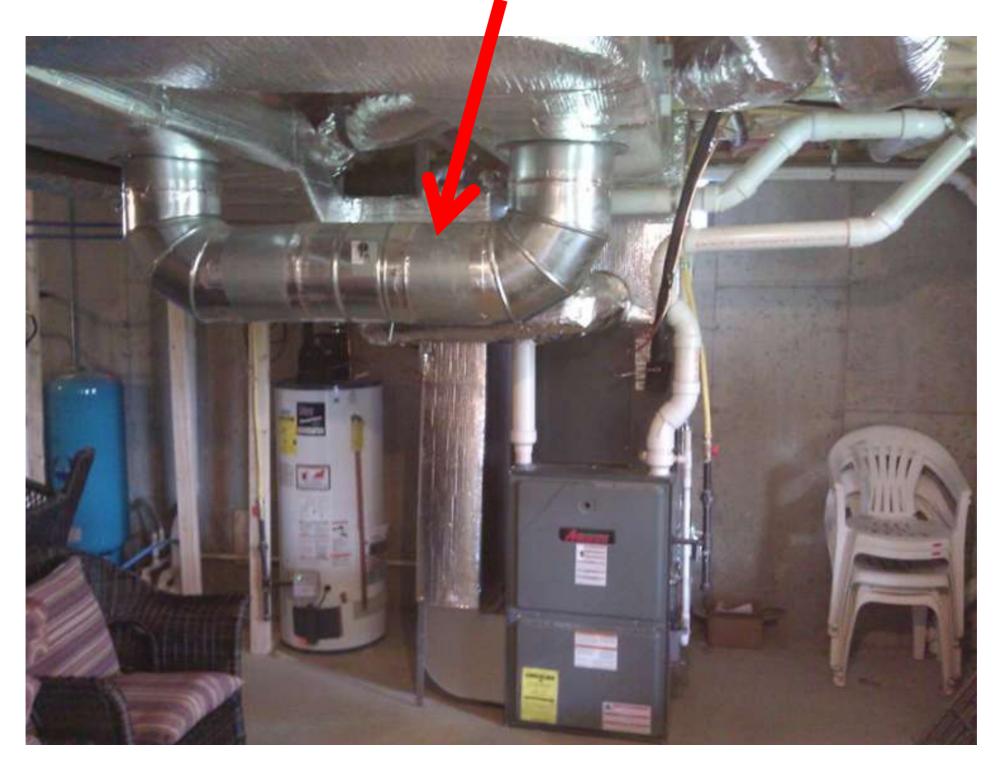

Except for this incandescent light bulb

Nothing!

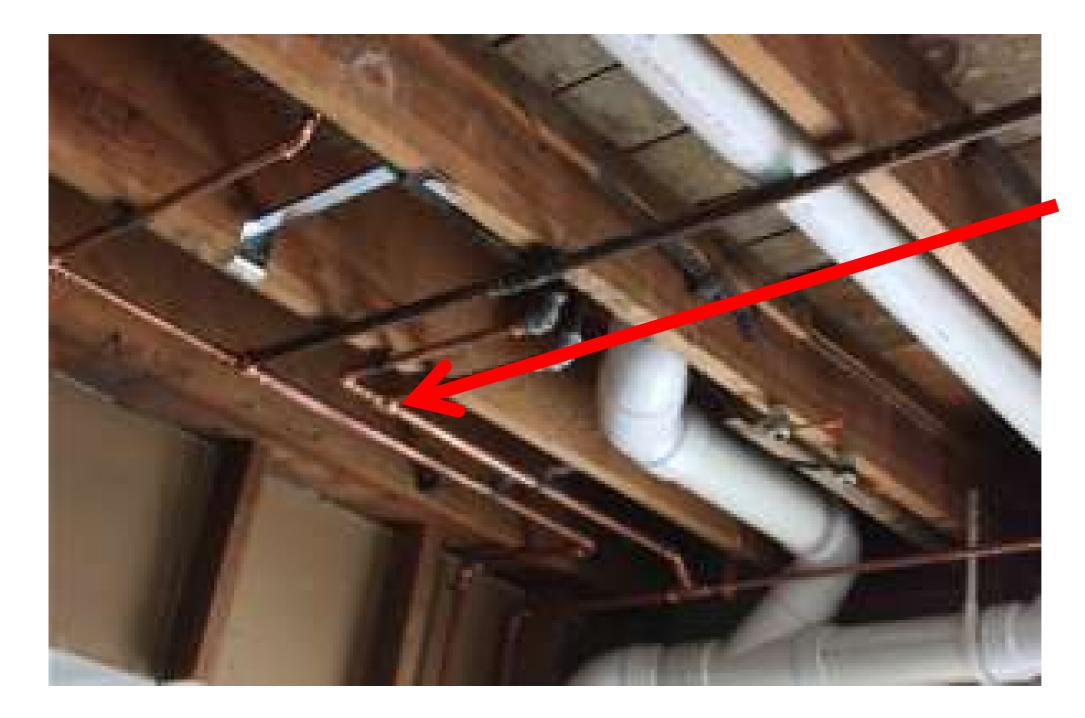

Duct connecting Supply and Return

Water Heater starting to deteriorate

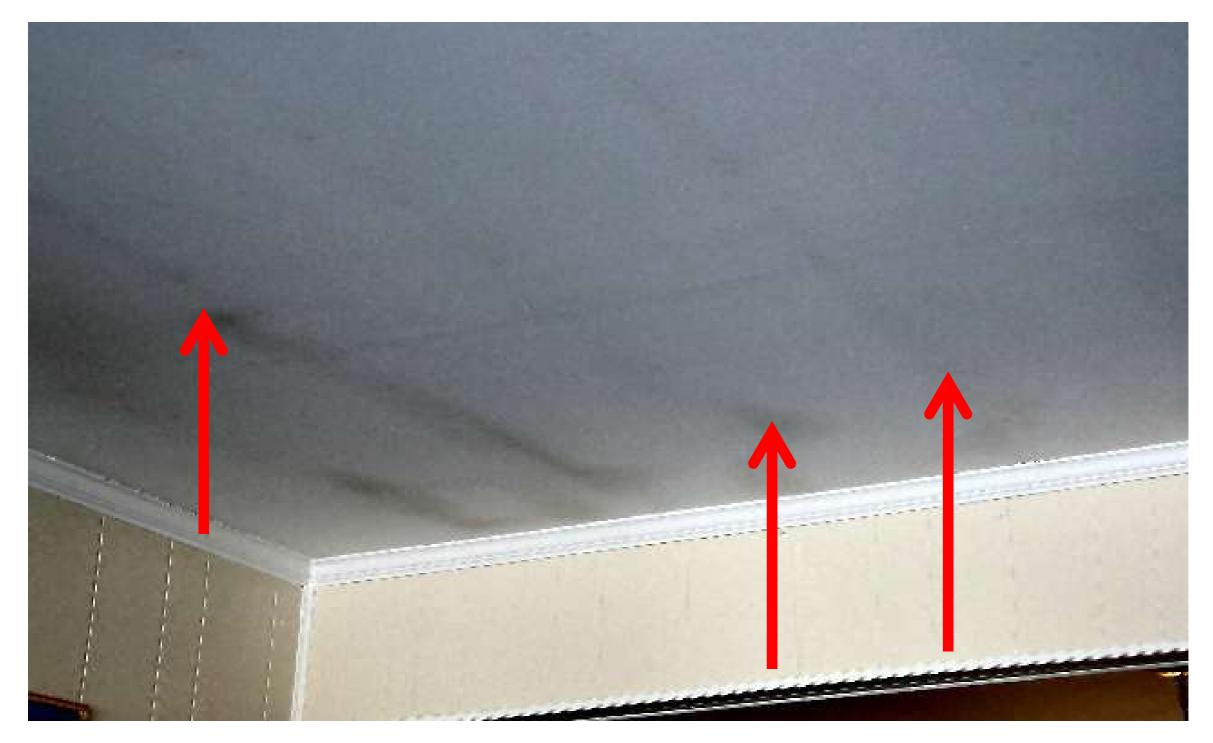

Uninsulated water pipes

Skylight Framing

Recessed Ceiling Lights?

Cold Ceiling (poorly insulated attic) collects moisture and any particles in the air, staining ceilings.

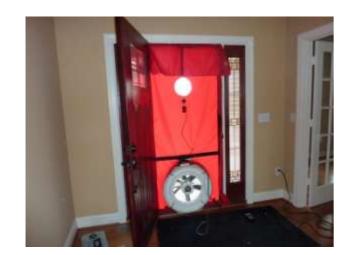

Poorly insulated and air sealed home creating Ice dams

Cape Light Compact Free Energy Assessment Call 1-800-797-6699 www.capelightcompact.org

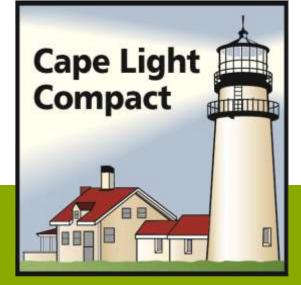

A qualified Energy Analyst performs an energy audit on your home using a "Whole-House" approach which includes:

- Analysis of historical energy consumption using utility bills
- Comprehensive Assessment Identifying Energy Efficiency Opportunities
- Combustion Appliance Testing (checking for safety and efficiency)
- Replacing Incandescent light bulbs with Installation of Energy Efficient Lighting
- Identification of Cost-Effective Energy Efficiency Opportunities
- Home Energy Action Plan- Providing Recommendations and energy savings projections
- Generous Incentives for recommended measures

Home Energy Assessment

o% Interest HEAT Loan Program

Up to \$25,000 with Repayment Terms up to 7 Years for Eligible Measures Including:

*Loan eligibility is determined by the lender. Must receive Energy Assessment

Air Sealing, Insulation and Duct Improvements
Domestic Hot Water Systems
Heating Systems and Thermostat Controls
Central Air Conditioning Systems
Pre-Weatherization Barrier Remediation

Now Available for Condo Owners!

Finance your 25% co-payment for weatherization measures

HEAT Loan

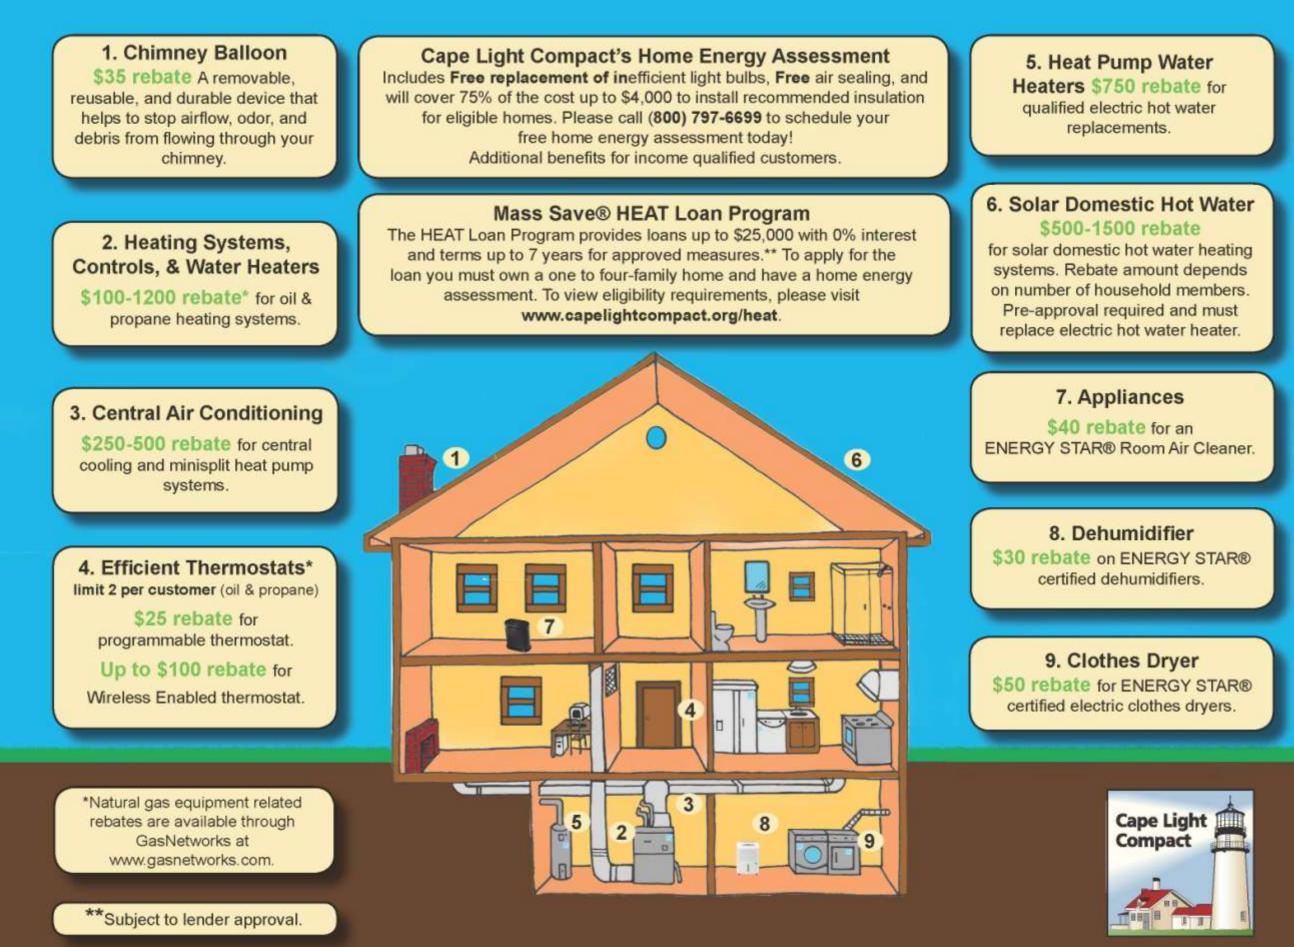

Get rid of that old inefficient heating system without breaking the bank!

Replace your old AC system or Install one for the first time
