

Pollinating Your Curriculum

**Teacher professional development for grades 3-5
Science, Technology, Reading, Engineering, Art, Math**

Waquoit Bay Reserve Headquarters

Feb. 28: 5-8 pm

April 19: 8:30 am - 5:30 pm

June 26: 1-5 pm

- Create a pollinator garden at your school!
- Plants, seeds, and other materials needed to create school pollinator garden will be provided
- Learn about pollinator garden habitats- food webs, life cycles and adaptations of plants and animals that inhabit them.
- Try out field and classroom activities
- Bring back posters and books

Course aligns with grade 3-5 Massachusetts State Science Technology and Engineering Standards. Offered free of charge thanks to a US Fish and Wildlife Monarch Meadows Grant and other sponsors. Optional graduate credit is available from Framingham State College for \$75.00 for the one credit course. PDPs available free through the Cape Cod Regional STEM Network and Cape Cod Community College. For a complete syllabus and to register (in teams of 2 or more per school), check www.waquoitbayreserve.org.
